

UNI-LIFT PD-4.0

The **Uni-Lift PD-4.0** is a modern hydraulic lift equipped with automatic height locks and a cable-based column synchronization system. Thanks to its long arms, it is suitable for handling all passenger cars, including SUVs and shorter delivery vehicles.

Technical Data

Capacity	4000
Lifting height	1900
Min. height	98
Arm extension range	740-1310
Max. height	2840
Clear distance column	2810
Drive-through width	2580
Clear distance column	3420
Lifting time	60
Electric supply	400V/50Hz
Motor power	2,6
