

GD 200/475

It is equipped with iron cylinders that increase the technical efficiency of the compressor and a pressure switch with thermal protection (to protect the engine from overload), two-cylinder, two-stage pumps characterized by high technical efficiency and longer lifespan, equipped with a cooler.

Technical Data

Electric supply	400V / 50 Hz
Tank capacity	200 litrów
noise level	80 [dB]
Cylinders	2
Compression levels	2
Intake capacity	476 l/min. (29 m ³ /h)
Motor power	3,0 kW
Max. pressure	10 bar
Weight	125 kg
